We Energies has a clean energy proposal in front of the City that will:

- help the city obtain nearly **40%** of energy from renewable sources which is well over the 25% goal by 2025 set by Common Council file [091066](#).
- provide payments to the city of **~\$80,000 per year for 20 years** in return for hosting solar energy arrays.
- not increase energy costs.

We urge you to contact the mayor and your colleagues to support this proposal.

If you have any questions about the proposal please

contact Robert Garvin at (414) 221-4707 or Joel Haubrich at (414) 221-4102.
